It is necessary to keep the PRODUCT in the original packaging sealed and under proper indicated environmental condition.

(*) These additional guide lines have to be added to the general previous one.

(**) MEL of printed paper with perlecent/metallic inks has a shelf life of 3 months.

| | PRODUCT | t °C | Umidity | Shelf life | Packaging and Storage (*) |
|--------------|----------------------|------------|---------|------------|--|
| CONFALONIERI | DEC | 10 - 25 °C | 50% | 12 | Product available in rolls, protected by shock-proof packaging. |
| | Finish | 10 - 25 °C | 50% | 6 | - Product available in rolls, protected by shock-proof packaging; - The rolls can be vertically or horizontally packed on pallet. |
| | MEL | 10 - 25 °C | 50% | 6 (**) | - These papers are available on rolls or in sheets, protected by shock-proof packaging; - Sheets are packed on pallets with covers or on wooden pallets; - The rolls are available with vertical and horizontal packaging on pallet. |
| PLANA | PPF | 10 - 25 °C | 50% | 12 | - We recommend storing the product in an environment with a temperature lower than 30° C; - Do not expose the product to direct sun light and humidity; - After transport and storage at low temperatures, a period of acclimatization of about 1 hour per cm of diameter of the roll is required. |
| | PPLF | 10 - 25 °C | 50% | 12 | |
| | PPF+ | 10 - 25 °C | 50% | 6 | |
| | EOS vertical grade | 10 - 25 °C | 50% | 6 | The product is available in rolls, protected by shockproof packaging. Rolls are available in vertical or horizontal packaging on pallets. |
| TEXTE | Thin Top | 10 - 25 °C | 50% | 12 | Thin Top laminates are supplied in sheets on pallets, wrapped with polyethylene and a shock-proof packaging. |
| | Thin Top Postforming | 10 - 25 °C | 50% | 6 | |
| | Thin Top Silk | 10 - 25 °C | 50% | 12 | |
| | Micro Top | 10 - 25 °C | 50% | 12 | Micro Top laminates are supplied in rolls. The core has a diameter of 152 mm. Shockproof packaging is used for all Micro Top rolls. |
| | EOS laminato | 10 - 25 °C | 50% | 12 | EOS laminate is supplied in sheets on pallets, which are wrapped with polyethylene and a shock-proof packaging. |
| | Cover Lac | 10 - 25 °C | 50% | 12 | - Cover Lac is supplied in rolls. The core has a diameter of 152 mm. Shockproof packaging is used for all Cover Lac rolls; - Laminate rolls should be stored horizontally. Vertical storage may generate wrinkles and/or cracks from the part resting on the ground; - Following partial use, the rolls of Cover Lac must be packed again in the original packaging and stored in a horizontal position. |
| | Laminex | 10 - 25 °C | 50% | 12 | Laminex is supplied in rolls, which are wrapped on cardboard cores with an inner diameter of 152 mm and protected by shockproof packaging. |
| | Lamisoft | 10 - 25 °C | 50% | 12 | Thin Top laminates are supplied in sheets on pallets, wrapped with polyethylene and a shock-proof packaging. |
